October 20, 1995

Det. Michael J. Cross
Naperville Police Dept.
1350 Aurora Ave.
Naperville, IL 60540

On October 3, 1995, William E. Amor voluntarily came into our laboratory for a polygraph examination to investigate whether or not he was involved or had knowledge of who set a fire and caused the death of Marianne Miceli on September 10, 1995.

This office was advised that on September 10, 1995, Ms. Marianne Miceli called 911 at approximately 6:41 p.m. from her apartment in Naperville to report a fire. She had indicated to the 911 operator that she could not exit the apartment because there were two chairs on fire blocking both doorways. Ms. Miceli was later found dead in her bedroom, the cause of death was determined to be smoke inhalation.

Living with Ms. Miceli were her daughter Tina and Tina's husband, William Amor. During the course of the investigation by the fire and police departments, it was determined that Tina and William were in the apartment up until approximately 6:30 p.m. When they were questioned about the fire, they both stated that when they left the building there was no fire.

Also, it was discovered that Ms. Miceli had a life insurance policy; however, both Tina and William deny that they had any knowledge of such a policy. Through discussions with friends of the family, people had indicated to the investigating police officers that they had heard both Tina and William talking about this particular insurance policy.

Before the test the subject signed a form releasing Naperville Police Department of any liability which may result from the polygraph examination. The executed release forms are incorporated as part of our laboratory file in this case.

It should also be noted that prior to his polygraph examination this subject acknowledged that he was not in custody, under arrest or in any manner being detained. He also acknowledged that he was aware that he could terminate this examination and leave at any time.

Page Two
October 20, 1995

Prior to his polygraph examination he denied setting the fire in Marianne Miceli's apartment on September 10, 1995. He also denied conspiring with anyone to start that fire. This subject went on to deny any knowledge of who started that fire on September 10, 1995.

He did state that to the best of his knowledge he and his wife Tina left the apartment on September 10th at about 6:20 p.m.

He said that he was home at the apartment the entire day watching football. He stated that Tina and Marianne were also home the entire day except for a brief period of time when Tina and her mother left to pick up a pizza. This subject indicated that he did not find out about the fire or that Marianne had died until he and Tina returned at approximately 11 p.m. that night from the drive-in movie.

This subject also denied knowing about any life insurance policy that Marianne had. He did state that there may have been a time when he and his wife Tina briefly discussed Marianne's life insurance policy, however, if in fact this happened he was too drunk to remember the conversation.

There were significant emotional responses indicative of deception throughout this subject's polygraph records when asked the following questions:

- (1) On Sunday September 10, 1995, did you do anything to start a fire in your apartment in Naperville? Answer: No.
- (2) Did you help or plan with anyone to start that fire? Answer: No.
- (3) On September 10, 1995, before you left for the movies, did you know your apartment was going to be destroyed by a fire? Answer: No.
- (4) Do you know who set that fire in your apartment? Answer: No.

Page Three
October 20, 1995

It is the opinion of the examiner, based on these responses, that this subject is not telling the truth about his involvement in and knowledge of the circumstances surrounding the death of Marianne Miceli.

When advised of his polygraph test results this subject continued to deny starting the fire in his apartment on September 10, 1995.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Michael F. Masokas", written in a cursive style.

RE: MARIANNE MICELI-DEATH INVESTIGATION

On September 12, 1995, William E. Amor voluntarily submitted himself for a polygraph examination to investigate whether or not he was involved in or had knowledge of the fire that caused the death of Marianne Miceli on Sunday night, September 10, 1995.

Before the test, the subject signed a form releasing the Naperville Police Department of any liability which may result from the polygraph examination. The executed form release is incorporated as part of our laboratory file in this case.

There were no significant emotional disturbances in this subject's polygraph records on the irrelevant, control or the following relevant questions:

1. On Sunday night, September 10, 1995, did you do anything to start that fire in the apartment?

ANSWER: NO

2. Did you help or plan with anyone to start that fire?

ANSWER: NO

3. Did you start that fire before you left the apartment on Sunday night?

ANSWER: NO

4. To the best of your knowledge, do you know for sure if there was any life insurance (policy) on Marianne (Miceli)?

ANSWER: NO

5. Are you making up any parts of your story to the police about this investigation?

ANSWER: NO

Due to the unemotional responses in this subject's polygraph records, this examiner is precluded from rendering an opinion as to the subject's status in this case at this time.

However, it should be noted that the subject consumed a quantity of alcohol just prior to the administration of this polygraph examination which may account for the unemotional nature of his polygraph records. It is recommended, if deemed necessary, that this subject be given a polygraph re-examination at a later date in order to further clarify the results of his test.

Re: MARIANNE MICELI-DEATH INVESTIGATION

On September 12, 1995, Tina M. Miceli-Amor voluntarily submitted herself for a polygraph examination to investigate whether or not she was involved in or had knowledge of the fire in her apartment on September 10, 1995 causing her mother's death.

Before the test, the subject signed a form releasing the Naperville Police Department of any liability which may result from the polygraph examination. The executed form release is incorporated as part of our laboratory file in this case.

During the course of the subject's polygraph pre-test interview, the subject requested that the polygraph test be postponed due to the impending burial of her mother later in the day. The subject stated that she would be willing to continue the polygraph test after the burial at a date and time convenient to all parties.

On September 15, 1995, the subject voluntarily re-submitted herself for a polygraph examination regarding the death investigation as noted above. The subject again signed a form releasing the Naperville Police Department of any liability which may result from the polygraph examination.

There were no significant emotional disturbances indicative of deception in this subject's polygraph records on the following questions:

1. On Sunday night, September 10, 1995, did you start that fire causing your mother's death?

3. Did you help or plan with anyone in anyway to start that fire Sunday night?

ANSWER: NO

4. Do you really know for sure who started that fire Sunday night?

ANSWER: NO

5. Are you intentionally making up any parts of your story to the police about this investigation?

ANSWER: NO

Therefore, it is the opinion of the examiner, based on the subject's polygraph records, that she is substantially telling the truth at this time on the abovelisted questions.

It should be noted however, that the results of the subject's polygraph test must be qualfied due to the subject's learning dysfunction and her limited comprehension of the polygraph technique.
